JOB TYPE: Part time Internship (5-10 hours / week)
PAID: Yes!!!
START DATE: Early February 2019
COURSE CREDIT: We will work with you and your academic institution to help you obtain course credit

ABOUT HACK UPSTATE

At Hack Upstate we work to **advance Upstate NY's tech community and empower developers across the region**. In pursuit, we organize hackathons and operate a coding bootcamp for women and minorities from CNY's distressed communities. To date, we've built a growing network comprised of thousands of Upstate NY engineers and we've helped facilitate dozens of job placements with local employers.

SCOPE

We're looking for motivated individuals, preferably undergraduate or graduate students from CNY academic institutions, to help support our NEW Careers in Code bootcamp. The bootcamp will teach computer programming to women and minorities from distressed CNY communities and provide them with the technical skills they need to obtain internships and full-time software development jobs with local employers after 24 weeks of instruction. You can learn more about Careers in Code here.

APPLY IF...

- You love working with people and you want to make a difference in CNY's economic future
- You write really, really well, and enjoy opportunities to grow as a writer every day
- You're remarkably detail oriented; checklists are your friend
- You're strikingly patient
- You collaborate well, and can thrive virtually with a distributed team (i.e., home, coffee shops, etc).
- You can take complex ideas, break them down and relay them as cogent and concise pieces of digestible information
- You're excited about developer evangelism and hacker culture

- You love solving challenging problems
- You can capably and successfully maneuver about dynamic and complex social situations
- You know what it takes to build and grow a community
- You thrive when positioned to help people
- You appreciate and understand the value of listening
- You have empathetic sensibilities
- You value character, integrity and "doing the right thing"
- You have a profoundly rich appreciation for your time, and invest it only in pursuits of which you care deeply
- You seek ways to improve existing processes and workflows to save time
